

Permission

Skylar Stecker

Everytime we cross the line you hesitate
Your patience got me wanting you in the worst way, mm
I wear my heart like it's a tattoo on your sleeve
I'd open up just like the buttons on my jeans
I'd give you somethin' that could turn you to a fiend

It's way too late for us to play it cool
You got potential, we should roll the dice
We'd break the bed and that's on breaking news
No competition, you got me, it's on sight
So make it right

Ooh, whatcha doin' to me?
Tangled up in the sheets
Are you going in deep
If I gave you permission
Every day of the week?
Get me weak in the knees
Can you do that for me?
'Cause I want your addiction
Ooh, wanna see that side of you
Ooh, give you more than a tease
Let you put it to sleep
Can you do that for me
If I give you permission?

Been here before, baby, I've seen the trailer
I wanna see the movie, can we make it?
Ooh, get the angles right
On the edge of my seat tonight
We can go all night, wake the city up
Speaking with my body, do not interrupt
You got the invitation, so reply on time

It's way to late for us to play it cool
You got potential, we should roll the dice
We'd break the bed and that's on breaking news
No competition, you got me, it's on sight
So make it right

Ooh, whatcha doin' to me?
Tangled up in the sheets
Are you going in deep
If I gave you permission?
Every day of the week
Get me weak in the knees
Can you do that for me?
'Cause I want your addiction
Ooh, wanna see that side of you
Ooh, give you more than a tease
Let you put it to sleep
Can you do that for me
