

# Playing For Keeps

Skylar Stecker

It was unpredictable  
Right down to the chemical  
Caught me off guard  
Never saw you coming, no  
Want you, but I shouldn't though  
Takes a lot of self-control  
Not to disclose  
All the times I thought about

You could lead to something  
If we keep it up, no doubt, it could lead to something  
You wanna let you know something

The thing about me  
If I'm going in, then I'm going in deep  
I could give you love that you wouldn't believe  
Only want your heart if you're playing for keeps  
The thing about me  
Once I'm all in, I ain't ever gon' leave  
I'll be by your side, so you're never lonely  
Only want your heart if you're playing for keeps

I don't wanna complicate  
I can't help but hesitate  
Need to know if  
If you're on a different page  
Kinda wanna cross the line  
Wanna know if you'll be mine, mine

You could lead to something  
If we keep it up, no doubt, it could lead to something  
You wanna let you know something

The thing about me  
If I'm going in, then I'm going in deep  
I could give you love that you wouldn't believe  
Only want your heart if you're playing for keeps  
The thing about me  
Once I'm all in, I ain't ever gon' leave  
I'll be by your side, so you're never lonely  
Only want your heart if you're playing for keeps

The thing about me  
If I'm going in, then I'm going in deep  
I could give you love that you wouldn't believe  
Only want your heart if you're playing for keeps
