

It's been a month but honestly it feels like forever  
That I've learned you're scars & what you'll order when we go out together  
I'm so invested, a mess when it comes to you  
Passive aggressive, a wreck when it's something new  
And I'm just hoping when you see my words in blue  
That they mean something to you

Say you could love me  
Say that you see a future  
I wanna know if you see the bigger picture  
Baby just hold me  
And tell me if you're thinking  
I really like you  
Do you really like me  
And did you notice with you I can't stop smiling  
You make me question  
Contemplating in silence  
So if I hold you, and tell you that I'm thinking  
I really like you  
Do you really like me

A little crazy but honestly I wouldn't have it any other way  
I would never ever ask you to change  
Wonder if I put all of my cards into your heart  
Would you play them the same  
Either way

I'm so invested, a mess when I think of you  
Passive aggressive, a wreck cus I know it's true  
And I'm just hoping that you feel the same way too  
That I mean something to you

Say you could love me  
Say that you see a future  
I wanna know if you see the bigger picture  
Baby just hold me  
And tell me if you're thinking  
I really like you  
Do you really like me  
And did you notice with you I can't stop smiling  
You make me question  
Contemplating in silence  
So if I hold you, and tell you that I'm thinking  
I really like you  
Do you really like me
