

Save Me Now

Skylar Stecker

Babe I, babe I don't know what to do
Is just a thing, just a thing I'm crazy of you
And I thought, and I thought what we have is true, true, true y
eah
But everything in my mind said it's too wrong
But everytihng in my heart, said it's too right
And tell me why, tell my why I'm split in two for you, yeahh!

You light me up, light me up like a firework
You shot me down, shot me down like a made of turn
But it's too late, it; s too late to turn back now, now, now
Someone save me now, save me now, I'm drownin now, please save
me now, just save me now

Boy you got, boy you got, got me wrapped up tight
This kinda love kinda love
Baby, it's just not right
So al we've done, all we've done
I'm losing my mind, mind, mind... yeah
And now you're sayin' that you love me
Why you lyin?
And then now you're sayin' how your sorry
But you're lyin
Some gifts and roses for a girl
Who isn't me, me, me, yeah

You light me up, light me up like a firework
You shot me down, shot me down like a made of turn
But it's too late, it's too late to turn back now, now, now
Just save me now, save me now, save me now...

What did I ever do to you
To make you wants someone brand new
You left me stranded all alone
I realized your heart was stone

You light me up, light me up like a firework
You shot me down, shot me down like a made of turn
But it's too late, it's too late to turn back now, now, now
Just save me now

You light me up, light me up like a firework
You shot me down, shot me down like a made of turn
But it's too late, it's too late to turn back now, now, now
Someone save me now, save me now, I'm drownin now, please save
me now, just save me now
