

Superman

Skyler Stecker

Got a lot in common
Got a lot of things in common
Made me fall real fast, its easy around you
On a deeper level
I know all your fears and battles
Here to help you play the game
I got you

So when you see my face
Does your mind start to race
Think damn she cant be replaced
So when you hear my voice
Does your heart make a choice
Boy, can you hear past the noise

Its okay
I know that you ain't got a way with words
Don't mind if I'm the one who's gonna have to say it first
What's been on your brain, whatchu thinkin'
Tell me that you'll be, here to listen

Its okay, you're guarded with your heart
Don't wanna be broke
But if you want my love you're gonna have to let that shit go
Cus I could be a part of your plan
I could be your superman

Baby, I'm the type to move slow
That's why I like our tempo
We ain't gotta rush no pressure around you
Even though its somethin' so special
We cant dance around it forever
Gotta lot of questions for you

So when you see my face
Does your mind start to race
Think damn she cant be replaced
So when you hear my voice
Does your heart make a choice
Boy, can you hear past the noise

Its okay
I know that you ain't got a way with words
Don't mind if I'm the one who's gonna have to say it first
What's been on your brain, whatchu thinkin'
Tell me that you'll be, here to listen

Its okay, you're guarded with your heart
Don't wanna be broke
But if you want my love you're gonna have to let that shit go
Cus I could be a part of your plan
I could be your superman
