

# Up On Game

Skylar Stecker

I don't mind if you want my number for later  
But boy we can't talk right right now  
I hope I don't come off as no instigator  
But show me what the fuss about

All the other girls  
They might drool over you  
And yeah, it's true I think you're cute  
But I'm not new to you

I've been up on game  
New face but nothing's changed  
You're the type that wanna break my heart  
Walk away tear my world apart  
I've been up on game  
But part of me wants to stay  
Are you the type that's gonna break my heart  
Walk away tear my world apart  
Oh no sir, I won't  
Fall for your lies that you say with a smile  
Oh no sir, I won't  
Fall for you even though I'm diggin' your style

You might be different but you gonna have to show me  
Cause I don't believe word of mouth  
Yeah it would be great if you were able to hold me  
But that's not what we're talking about

All the other girls  
They might drool over you  
And yeah, it's true I think you're cute  
But I'm not new to you

I've been up on game  
New face but nothing's changed  
You're the type that wanna break my heart  
Walk away tear my world apart  
I've been up on game  
But part of me wants to stay  
Are you the type that's gonna break my heart  
Walk away tear my world apart  
Oh no sir, I won't  
Fall for your lies that you say with a smile  
Oh no sir, I won't  
Fall for you even though I'm diggin' your style

And yeah, it's true I think you're cute  
But I'm not new to you
