

# YOU

Skylar Stecker

Listen

Imma sit you down you gonna listen  
Say what's on my mind without you flipping out  
Am I to nice, push it aside, no no

Cus I do it for you  
Can you do it for me  
With the pieces all here  
Why you choose what you see  
I do it for you  
Can you do it for me  
Gotta know it's not fair, baby

Cus you be up beside me  
Not like Imma fly away  
Butterfly's inside me, ooh  
Giving my all, giving my all to you  
And lately I'm thinking, oh  
Maybe the problem is you

Tell me what's the motive  
Dancing round the things I say  
Rolling through the motions with you  
Giving my all, giving my all to you  
And lately I'm thinking, oh  
Maybe the problem is you

Listen

You still lost, I'm found and somethings missing  
I can't lock you in without you dipping out  
So distant now  
You know you can't deny it

But I do it for you  
You don't do it for me  
With the pieces all here  
Why you choose what you see  
I do it for you  
Can you do it for me  
Gotta know it's not fair, baby

Cus you be up beside me  
Not like Imma fly away  
Butterfly's inside me, oh  
Giving my all, giving my all to you  
And lately I'm thinking, oh  
Maybe the problem is you

Tell me what's the motive  
Dancing round the things I say  
Rolling through the motions with you  
Giving my all, giving my all to you  
And lately I'm thinking, oh  
Maybe the problem is you...
