The Final Answer

Skylark

Clouds in the night, sparks in my sight, whispers and words in my way,
Live and let die, just to survive, find one more reason to stay .

There's no escape for the chosen one, all alone in my invisible game,
Trapped in this night we will find the same.

Answers fall deep down, today, tonight.
Answers fall deep down to spread my flight.
Answers fall deep down, no need to worry,
Black souls won't survive, if my answers fall deep down.

Answers are now in my life, no way to turn back the time.
Answers are now by my side, close your eyes, and fly.

Answers fall deep down, today, tonight.
Answers fall deep down to spread my flight.
Answers fall deep down, no need to worry,
Black souls won't survive, if my answers fall deep down.
One more time.

Clouds in the night, sparks in my sight, whispers and words in my way,
Live and let die, just to survive, find one more reason to stay .
So find one more reason to stay.
