SKYND

Come live comradery, ah
In harmony, ah
One big community
Utopian society, ah
Come live equality, ah
No boundaries, ah
Human economy, ah
Did I say no boundaries? Ah

Come, come to God
Come to the temple, come, come
Come, come to God
We shall overcome someday
Come to God
Come to the temple, come, come
Come, come to God
Suicide Sunday

Hey, Dad, thanks, Dad, hurry, sisters, hurry
It's all over, all over, hurry, children, hurry
White night, drink Flavor Aid cyanide
Lay down your life, lay down your life, yeah

Get up, get up, get up and lay down your life
Drink it, drink it, drink up the flavored cyanide
Get up, get up, get up and lay down your life
Lay down your life, lay down your life, yeah

Get up, get up, get up, get up, get up
Drink it, drink it, drink it, drink it, drink it
Hurry, hurry, hurry, hurry, hurry
Lay down your life, lay down your life, yeah

Get up, get up, get up, get up, get up
Drink it, drink it, drink it, drink it, drink it
Hurry, hurry, hurry, hurry, hurry
Lay down your life, lay down your life, yeah

The edge of paradise, ah
Seems very nice, ah
And then you see his vices
Selling monkeys, godless junkie
Religious holy roller
A mind controller
No one can leave, I told you
Holy growler, blind patroller

Come, come to God
Come to the temple, come, come
Come, come to God
We shall overcome someday
Come to God
Come to the temple, come, come
Come, come to God
Suicide Sunday

Get up, get up, get up and lay down your life

Drink it, drink it, drink up the flavored cyanide
Get up, get up, get up and lay down your life
Lay down your life, lay down your life, yeah

Hey, Dad, thanks, Dad, hurry, sisters, hurry
It's all over, all over, hurry, children, hurry
White night, drink Flavor Aid cyanide

Hurry, hurry, hurry, hurry, hurry
Lay down your life, lay down your life, yeah

I'll be with you soon
I'll take what you spread
I'll be with you soon
There's nothing to fear

909 souls, don't do this
Nine oh, nine oh, no more pain now
909 souls, it's easy
I'm gonna take on all your battles

909 souls, don't do this
Nine oh, nine oh, no more pain now
909 souls, it's easy
I'm gonna take on all your battles
