

# Be Well

Skyzoo

Trying to be a Huxtable but predestined to be a Evans, see what luck can do?  
If we was ever to see an exit, keep it wonderful  
And leave out on good terms if it come to you  
For what it does to you or if its worth it there  
Charge it all to the game and leave your purchase there  
Cause all we wanted was lanes so if we turning there  
Know that we drove for as long as we could  
Misunderstandings when all of us were so understood  
Putting hands in, trying to get a hold of some goods  
I mean, Nelly called is mother and told her quit her job  
Fuck a 16, that shit was as real as God  
And as I watched that diary on Cornell  
I became a fan for how he changed the doorbell  
Buzzers get replaced so fuck you feel away  
I'm just trying to do that all so give me love or give me lane

Be Well

Be Well

Be Well

Be Well

I just hope you be well

Well enough to know where we at

One of one, and I just hope you see that

And I just hope you

Be Well

Be Well

Be Well

Be Well

I just hope you be well

Well enough to know who we are

We were dreaming long enough now that sleep shit is gone

So be well

Introspective street rap I birthed that

I carried that flag when y'all were trying to 'herse that

Now this shit is moving and its proving that you can work that

Do remember where they learned that

Hope you be well

Well enough to know the dope from the jail

And the shit they try to give you when they throw you a cell

Cause all I ever tried to give you was all pure

I ain't gon' step on anything it was all yours

I was trying to paint a couple pictures in the living room

Using cardboard as a canvas like 'this will do'

And if I bid adieu

And these is worth something

And let my mother make a sell, so she could purch' something

And let my pops keep his favorite out the catalog

And if my block get to spraying, I ain't mad at all

Salute something, word to black Jesus on the wall

If not, then you won't see us anymore and I just hope you Be Well

Be Well

Be Well

Be Well

Be Well

I just hope you be well

Well enough to know where we at  
One of one, and I just hope you see that  
And I just hope you  
Be Well  
Be Well  
Be Well  
Be Well  
I just hope you be well  
Well enough to know who we are  
We were dreaming long enough now that sleep shit is gone  
So be well
