Con-  
Conductor

The writer and The Conductor  
A pen and baton, a rifle tucked by the shutters  
Thumbing the Quran with a Jesus piece and a duffle  
Duckdown alumni, I got signed cause of Ruckus  
With a bowl of Apple Jacks in my living room  
Sights on The Carter with a Pookie to get us through  
He said it himself, I follow suit like an interview  
The neighbors throwing hands upstairs make the ceiling move  
My crib was 18F, by the incinerator  
When Brenda had a baby, my crush wanted to imitate her  
Same way we saw preacher kids turn into [?]  
Same way I can put ya fav on a ventilator  
I purify all of this and still reroute where to the Brinks at  
Heaven and a Ferrero, [?] shrink wrap  
In front of the school blowing Bidis out the pink pack  
Out grew the bracelet, had to extra link that  
Devoted

From me and mine the way you know it  
Run back from me and mine until its over  
Run back from me and mine shoulder to shoulder  
Run back keep that in mine you can chalk it up to devotion

From me and mine the way you know it  
Run back from me and mine until its over  
Run back from me and mine shoulder to shoulder  
Run back keep that in mine you can chalk it up to devotion

A 718 kid but raised on Willie Burger energy  
So abstract rap won't ever interest me  
Pressure busts pipes and bubbles of what u think of me  
The thought of Meek'll help bubble coat incidentally  
Baguettes on my school days  
Turning my beeper into a group page  
Cleaning all my jewelry out with toothpaste  
Nice enough to make the loop wait  
So me announcing a new tape is '99 Garcelle Beauvais  
Perfect  
If you been around us then we relate  
The TDK get louder than TD Jakes  
And you playing in a way on a side will get you lost  
But never mind you probably still eat pork  
Im product of [?] yo everything is a step away  
Trail is all that was set in place  
When Chubb Rock was shouting out me and my friends  
Superheroes flew around us in a CLS Benz

My man Val helped me follow my call  
We watched Nelly turn into a pop star off a drive by song  
I sat back like The Mack my FUBU suit was black  
Like all of these defining moments that be coming in two packs  
I took the bottle when passed it my cup plastic  
Hennessey splashing blending in with my fabric  
You find God, find a beat or find a cupboard  
Used to find a coach had the key to find your jumper  
You know how it go we from outside we [?]  
We really just mirror each other we all dominoes  
Shoulder to shoulder dealing with the time of when you become an OG and when  
realize that  
Writing demos in the room where they was stepping on dope  
Now I drink almond milk and use peppermint soap  
Shoutout Califia Farms shoutout Dr. Bronners  
And us for finishing the school of hardknocks with honors
