

Ever loyal  
Skating from Mrs. Westlake, but she bad  
I should be laying with Mrs. Westlake, and we had  
Copies of Shakespeare on vinyl  
Magic Johnson posters but blue and orange idols  
And through all of these haiku's  
I'm back on my Michael  
Which ever one, between '89 and '98  
Providing it by the day and driven by being driven  
Inspired to drive away in cars with less room  
Either that or getting picked up in cars with stretched roofs  
Where the only thing that's not in the car is the restroom  
Cause when Jada said his car had everything but a bar  
It inspired me to want refrigerators in the arm-rest  
First half of the calm yet  
Meaning that the storm should be coming like a cartridge blowin  
g  
Double meaning  
Shit, to know him is to be him  
Either that or at least see him  
And he usually be at Farmer in the deli if you need him  
You can tell him by his sneakers  
Never tied and never kinds you can find in the retail  
Fiends get excited outside when they see Mel  
Meaning that the sneakers are shipping in  
And whatever pair I got on I'll probably give to them  
Stringing these together through loops like where the symbol is  
If you could walk a day in my shoes then you can sit with them  
That was kind of high, pardon me for throwing that up  
I assumed that you would've knew and followed through with some  
backup  
But my pocket is gorgeous like Lolo Jones  
So even if you couldn't catch it you could go off flows, right?  
Gordon Gartrells and Creed cologne  
It cost a bottle a Spade, shit to each is own  
I smell amazing
