

## Parade Me

Skyzoo

They trynna parade me, they trynna parade me  
Whether their intentions are to pose or to praise me  
We just getting started baby all of this is crazy  
But tell them I don't mind because none of that will change me  
So we can celebrate it (hey) we can celebrate it  
So we can celebrate it (hey) we can celebrate it  
So we can celebrate it (hey) we can celebrate it  
So we can celebrate it (hey) we can celebrate it  
They trynna parade me

My pen theory is fine as Amel Larrieux  
On the page you can see that design all up in the groove  
Off the gauge you can see how I'm liable to get it through  
When it plays you would think you outside of my living room  
None more vivid or more in it to talk with it  
When it's all finished the talk did it I'm all in it  
When they talk get em they bout him like "pa listen  
Son is all product, the floor about him just all shifted"  
I mean, call it a crisis of leadership, but he was just  
Carrying the load for the Joe's that wanted to see us win  
I'm more of the Stringer role  
My part is to sling it low  
From beyond beyond just keep me off the ringer yo  
Audience becomes the keepers of the sing alongs  
Back and forth wording  
Call it catalog turbans  
Wrap around it if you will  
Say I'm back to y'all service  
Tell em my enthusiasms where the curb is

They trynna parade me, they trynna parade me  
Whether their intentions are to pose or to praise me  
We just getting started baby all of this is crazy  
But tell them I don't mind because none of that will change me  
So we can celebrate it (hey) we can celebrate it  
So we can celebrate it (hey) we can celebrate it  
So we can celebrate it (hey) we can celebrate it  
So we can celebrate it (hey) we can celebrate it

The flow I'm on is full of my addiction if you know the God  
You know that it looks like Univision baby toast to y'all  
You know if it move you moving with it so you know you all  
Share and share alike, share the light if it should go to y'all  
Protocol, follow that, follow like you follow @'s  
You follow Patron with Patron while I follow Yak  
You follow me home I get home you a block in back  
My hood know I roam like my phone got a model app  
Back to what I'm in this for  
Ask em what my business on  
They know that I rhyme like none alive like I ain't lived before  
They know that I rhyme that other side and what I'm sitting on  
They know when I rhyme it's like they rhyme, they on this accord  
Pocket flow, plugged it off the leg and I ain't miss a cork  
Dip between the bass, you see the bass, I ain't miss a cord  
Labels off the fruitage  
I'm lyrically the truest

The best around now to jump into this

They trynna parade me, they trynna parade me

But tell them I don't mind because none of that will change me  
So we can celebrate it (hey) we can celebrate it
