

The Workload

Skyzoo

If it's generational that's fine
Just tell the next ones up to get them some work
Tell them get to the work

Billboard charter with a mask on
I can pen your doom or I can lead you where the plaques are
Catch me fully loaded rolling I click it and clear the fog
You listen to the quotes my Essentials is Fear of God
No one else though I'm 36 chambers cover stealth mode
White stocking caps black hoodies we PLO
Style the here and now is the crown is all protocol
You label me a goat I label you a know it all
The feeling of an adderall
Or the feeling of turning down offers for your catalog
Heard y'all playing bottle wars
If I'm tagged in my bottles is off the carts
Adam Silver brought in through locker room due to me playing banner wars
Listen must we forget I originated all that surprise shit that double enten
shit
That break down the meanings til next year and beyond shit
718 throne's sitting at arm's length
Touche like a toupee was drug under
So it's headshots if they need us to pull the rug from 'em
But at least if you find the Henny and find the Runtz
Then the culprits of it is iron liver and iron lung

If this is a generational curse
The bag coming with it will fix it how we prefer
It's love youngin
Now go and get you some work
It's love youngin
Now go and get you some work

If this is a generational curse
The bag coming with it will fix it how we prefer
It's love youngin
Now go and get you some work
It's love youngin
Now go and get you some work

It's a generational rap or a generational gap
All these generalizations what generation is that
If we're generally speaking my generation is back
X generation in general generating the back
I'm a track star them big bras can show you where the racks are
Them fast cars you fit in a crash out that's a crash bar
Black out get blacklisted I'm playing black robbed
And cash out cause credit ain't given for playing black card
Black heart that part I spit they backwash
Try and mark you out for you mark us now that's smart
Our dogs go to heaven like dogs
Our dogs go to heaven like DMX
I'm that dark paper on the table with guns drawn now that's art
My profile says I'm a pro with the pronouns
It's protocol to give 'em the pros and cons I'm profound
New York sound like we gotta win for the hometown
You give a pound of flesh you get ten back like toe down

Touche like a toupee with blood from a dead drug smuggler
His body rolled up in rug covers
But at least if you find a Henny you can find the ruts
Then the culprits of it is iron liver and iron lung
Talk to 'em zoo
