

Way To Go

Skyzoo

Yea! Eh yo, 9th
They got a long way to go, homie
I mean I hear 'em talking
But you know its like the sample says, you know
They got a long way to go
Cause when they talk
It's like I gotta lean to the side just to listen to em
Cause they talking outta the side of they mouth
Let me put them on a S.K special yo

Peep it
Another beautiful day where the cement is
Liquor stores, twistin' raw those is prefixes
I know the corner like ma sneaker size
So when you speak of the curb its like you speak of sky
You see me ride on my H.O.P like ma mother name me HIP
So you can't show me nothing about making a flip
I was born with it, sorta like I was drawn with
So am gon' get it in the heart of the stone with it
Amma brow difference
But now or later and blue juice
Barbeque sunflower seeds and fruit loops
Live from the 718 to the death of this
Marry the code I propose and she excepted it
As far as the MIC I does this in ma sleep
I pen a song before you get on beat word
They only hatin' cause they wantin ' to be us
And the way I'm on the drum is like I'm fuckin' the speakers
Hear me out

Y'all looking for a way to go
But we been here certified in here
Feeding is a [?] here
This shit is KO you motherfuckers still looking for a way to go

I got em screaming my name from bad bitches to ma day one fans
The bottom line is the grind
I made one plan and stuck with it
This shit is like a lay up fam its automatic
I treat it like a straight up gram you all addicts
Addicted to the leaning on the curb
16 so mean got em leanin on the words
Its nothing you can do to SKY
I put my heart in the badge
You see the [?] line look closer
You don't wanna get involved
If the corner had a logo it would be me, Yankee fitted on
Burner bulging out on the waist cause slippin up is all that it takes
I'm not Tom, but I own my space
The city's favourite ghetto celebrity
Never learned swagger I inherit the recipe the recipe
Still living up that expensive wardrobe shit
And living it too, it makes y'all sick

Y'all looking for a way to go
But we been here certified in here
Feeding is a [?] here

This shit is KO you motherfuckers still looking for a way to go
