

Mission Complete

SL

Ball like a boss and I ball how I want till my mission complete
I could get money to last me the year
And I still need a re by the end of the week
What's with your bro IDK what he mean
Boy this streets we think our feet
I cannot squabble all over a watch
Cah I knew Johnny before Philippe

Ran from the plug cah his belly was full
No it weren't great but it's calm it was cool
Back in the day when we wanted a play
Having your blade was a part of the rules
What when your down they don't answer your calls
When bro was wanted I harboured the fool
If they ain't working I'm starving them all
Feds kick the door disembark with your tool
Fed's kick the door disembark out the place
Cah there's packs of yay by the bottles of rayes
Brodi a zombie he's off it today
Baddie I think she want it today
Cabby jump in the ride and I sway
Happy got me a box of the pot
This ain't the states we don't trap on the corner
But these Nokia's have us working a lot
Fuck what you want take what you get
This world we live in you warm your respect
Of a nigga asks questions it comes from the best
Straight from the v down to the s free
My boy yuck that's a nigga I'll miss
Hell rob a boy on the way to a lic
I ain't waiting for shit I'm impatient with it

Look

Ball like a boss and I ball how I want till my mission complete

Cah I knew Johnny before Philippe
I'ma need noddy b4 the jeet
You ever woke up right next to a hoe
And thought to yourself that's poor from me
Look at the back it's the door for me
Roll me a spliff and forget what I've seen
True I caught her on Sloane
But she ain't seventeen
Give her the bone
Press it and leave
Look
Best in the borrough
We stacking our quid
Why you think bro put money right before the Mitch
I don't care bout a hitch
Pattern the sitch give it a swing and we dip

Quick she on my balls like a prick stick
Hammer a brick
Tackle the dish
Blowing my weed and I sip
Sip may boy live long but we live big

Ball like a boss and I ball how I want till my mission complete
