

Super High

SL

Let's go, let's go
Go, go

Yo cuz what's good?
Been on strips and I've been on hoods
Bad bitch, said she take the demon wood, very active
The way she give the meanest goods
Catfish, wish I didn't sneak a look
But I wrapped it tell her go and read the books
Stop acting, tell them bout' trees I took
On the gang ting, runnin' like they need to pop

She just wanna slide
Now it's do or die
You fucking give me brain, now I seen the night
Party never starts till you arrive
Mix the cali with the henny now I'm super high
Sun is down when I come alive
I just fuck her for a round when she wanna fight
When it's bout' that money put the phone aside
Put the cali with the henny got me super high

Look, big S I win
Simplest of jobs, get the pack and get rid
Like what's going on he's too friendly with your chick
Her names Olivia, why the hell he call her Liv'
If I catch a opp there ain't no seeing who he's with
Should've told them stay home we weren't tryin get hit (we weren't)
I saw the camera footage of your boy get chinged
Me and my popcorn skippin' to the best bits
No luck in the field it was a slow pacer
When I learned about a shank it was a game-changer
Should've waved to the cams it couldn't get baiter
Phone up your mans and tell them you in great danger

She just wanna slide
Now it's do or die
You fucking give me brain, now I seen the night
Party never starts till you arrive
Mix the cali with the henny now I'm super high
Sun is down when I come alive
I just fuck her for a round when she wanna fight
When it's bout' that money put the phone aside
Put the cali with the henny got me super high

Put the cali with the henny now I'm super high
Told your boy steady, moving edgy I know do a guy
Back my blade then the threat got neutralized
I won't stop till my whole blocks unified
Under no situation have I smoked a swine
If the odds ain't looking good I'll still roll the dice
She in double trouble, so she blow it twice
Tell her fly away and come and show me when she's notified
Tried to put down the buuj, but I can't akh
You know how many times I screamed last pack
Me and bro, other side tryna harm man
Stay jumpin on the wood she like tarzan

She just wanna slide
Now it's do or die
You fucking give me brain, now I seen the night
Party never starts till you arrive
Mix the cali with the henny now I'm super high
Sun is down when I come alive
I just fuck her for a round when she wanna fight
When it's bout' that money put the phone aside
Put the cali with the henny got me super high
