

# Burning in the Heat of Love

Slade

Sun's above the fire below  
The earth is quaking shimmy shaking to and fro  
And if in doubt you check it out  
This crazy thing called love the fuss is all about

Chorus

I'm burning in the heat driven by the beat  
Can't you see I'm burning in the heat of love  
I'm burning in the heat driven by the beat  
Can't you see I'm burning in the heat of love

I'm cool above I'm hot below  
My knees are knocking shocking tremeloe  
We wined and dined in 69  
This red hot pleasing shot a tingle right up my spine

Chorus

I'm burning in the heat driven by the beat  
Can't you see I'm burning in the heat of love  
I'm burning in the heat driven by the beat  
I'm burning in the heat of love

Break

Hey you over there  
I remember your eyes  
You look so good when they were closed

I'm smoking above and I'm steaming below  
My back is aching busy making ecstasy flow  
And taking a tip well I finally got hip  
The only real L.O.V.E. is caught in my zip ow

Chorus

I'm burning in the heat driven by the beat  
Can't you see I'm burning in the heat of love  
I'm burning in the heat driven by the beat  
I'm burning in the heat of love

I'm burning burning burning burning  
I'm burning in the heat of love  
I'm burning in the fire that's my desire  
I'm burning in the heat of love

Get lucky you teaser

Are you gonna give us some lip

Ooh I like your mind

It's your body I can't stand
