I can see you here but don't worry  
with you hair down in your eyes and you say hi  
I had to come back without due warning  
now I caught you making love I'll say goodbye  
[chorus]  
bye bye, bye bye, I just want you to say goodbye  
bye bye, bye bye, I just want you to say goodbye  
I can see you cry out I'm sorry  
blow your nose and wipe your eyes and you'll know why  
I had to come back without due warning  
now I'll pack my things and then I'll say goodbye  
[chorus]
