

## High and Dry

Slade

Over and over

You're such a shy girl, see you every day  
Oh me oh my girl, don't know what to say  
Have you lost your voice?  
Are you spoilt for choice?

My reputation's strictly for the birds  
Don't believe in everything you've heard  
How I operate  
You ain't got long to wait - we'll do it

[Chorus]

Over and over (don't you turn me over)  
Then I love 'em and leave 'em high  
Over and over (don't you turn me over)  
Then I love 'em and leave 'em high  
High and dry

You take me home and I promise I'll behave  
Won't wake your ma, I'll be silent as the grave  
You'll be the first to crack  
Then you'll want me back - to do it

[Chorus Repeat]

You're such a shy girl, see you every day  
Oh me oh my girl, don't know what to say  
You want equality  
You won't get none of that from me - we'll do it

[Chorus Repeat]

I leave 'em, I leave 'em - high and dry  
I love 'em, I leave 'em - I love 'em, I leave 'em high  
I love 'em, I leave 'em, I heave 'em - high and dry  
I leave 'em high and dry  
I gonna leave 'em high
