

## Summer Song (Wishing You Were Here)

Slade

Ev'rybody needs a by the sea affair  
Where you get the urge from something in the air  
Helter Skelter on a mat "Kiss me Quick" is on my hat  
and you do it on the ghost train for a dare

Wishing you were here same as ev'ry year  
'cos our summer madness is too short  
Wishing you were here Where the sunshine's near  
Is it true that wishes can be bought

Ev'rybody needs the moonlight on the beach  
Where the water's cold and no one hears you screech  
Getting buried in the sand what you holding in your hand  
let it go or else I'll keep it out of reach

The last night you dressed to kill  
Will you write? You say you will  
sometimes hopes just fade away

Ev'rybody needs to have a sea romance  
When the world around just doesn't stand a chance  
Candy floss stuck on your nose and you donkey's name was Rose  
What's this cheek to cheek in ev'ry single dance
