

## Universe

Slade

I was coming home, I was all alone  
In a place so cold I don't feel  
I was there for years, so afraid of fears  
I was lost and I was the curse  
Oh won't you be my universe

Oh yeah

I can hear the sound, I can hear it loud  
Of the beat before time was dawned  
Through the fire and rain I can feel your pain  
Won't you be the last like the first  
Oh won't you be my universe

How much have I traveled  
How much have I seen  
Is this reality or a broken dream, Ohhh

Through raging storm won't you keep me warm  
I'm the hunger, I am the thirst  
Oh won't you be my universe
