

# Back Where I'm From

Slaine

(Verse 1)

I feel like I made it  
Tell me my happy be lated  
She be gone since '05 but I'm still her favorite  
Faded got that blame mapped out I ain't perfect yet  
But I'm numb to a dumb off that perk set  
Work that stress for I won't let that bullshit bug me  
They screamin fuck me but they clowns no Crusty  
Diamonds sharp these rappers slash big fans  
The best that ever will be  
Hitman heart got a kick stand  
I'ma hold you up  
When you fall in south Boston raise a soldier on  
I stay fly but these days I be broke as fuck  
Cigarettes smoke filling got me hopeless but  
I never quit I promise, I swear  
To God this everything I ever wanted as long as I'm alive  
I'ma concentrate who gavel hate  
Sponsored by the hate  
But broads see you buy Boston broken hearts  
Slaine talk to them

(Hook)

Things will never be the same again I was told once  
And I don't like the new songs as much as the old ones  
I'm back to the place where I'm from  
I can still remember back to the days I was young  
This is the place where stars are born  
Where stars are born  
This is the place where stars are born  
Where stars are born

(Verse 2)

I'm just trying to get what I deserve  
But the life is what you bargain for  
I got the nerve to want to be living good  
Got a call from the bottom up  
I'm tryin' to be the lucky squirrel that got a nut  
Been on tour got bit travel then I got stuck  
I spent the money on working bills and I got back  
My chick left she didn't believe she thought I'd lose  
I didn't sing the blues now I got something to prove  
If I got to shove the shit I gotta get mine  
Then I'ma get times with her or not I spit rhymes  
Cops harassing 'cause I'm an narc black  
Looking like an assassin and I'm just puffing grass  
My dream is for my seats and never be on that street shit  
Or having that beef shit or carve by police shit  
I never sleep with the wife the cats that I eat with  
Speaking of cats I got stripes like heathcliff

(Hook)

Things will never be the same again I was told once  
And I don't like the new songs as much as the old ones  
I'm back to the place where I'm from  
I can still remember back to the days I was young  
This is the place where stars are born  
Where stars are born  
This is the place where stars are born  
Where stars are born

(Verse 3)

I'm back home from 208 back to my life at home  
Worldwide for months speaking raps from a microphone  
Living on the road bags pack with my wife at home  
But she couldn't take it no more, now my wife is gone  
They say I never make or dissagre with them  
All the dot they threw on them is really only feeding them  
He had a hunger and a passion ye he had a need in them  
Jimmy swear me for them honey just don't deed again  
But I said that I will make it ye I made a good call  
You are hating on the side praying that I would fall  
Mom's knew it was in me since I stood a foot tall  
Had the heart and I would brawl since I could crawl  
I just want to grow see my son playing football  
I just wanna lay my head in the place I could call home  
I'm back to the place where I'm from  
I can still remember back to those days I was young

(Hook)

Things will never be the same again I was told once  
And I don't like the new songs as much as the old ones  
I'm back to the place where I'm from  
I can still remember back to the days I was young  
This is the place where stars are born  
Where stars are born  
This is the place where stars are born  
Where stars are born
