

Broken

SLANDER

Falling out I fought over and over
For you I don't feel no more
Don't you see it?
Cold blooded killer God I swear
You hold this power over me
Bring me to my knees
You just like to fuck with me don't you

Volatile baby you watch your tone
Clearly you don't care if I'm on my own
Ah, kill two birds with that stone
Go and break my heart like you broke this home
Go and break my heart you broke
Go and break my heart you broke
Go and break my heart you broke
Go and break my heart
Go, go, go, go, go, go, go, go, go, go
Go and break my heart like you broke this home

Go and break my heart like you broke this home

Falling out faster than I can grasp it
Can't hold this hurt anymore
Don't you see it?
Cold blooded killer God I swear
You hold this power over me
Bring me to my knees
You just like to fuck with me don't you

Volatile baby you watch your tone
Clearly you don't care if I'm on my own
Ah, kill two birds with that stone
Go and break my heart like you broke this home
Go and break my heart you broke
Go and break my heart you broke
Go and break my heart you broke
Go and break my heart you broke
Go and break my heart you broke
Go, go, go, go, go, go, go, go, go, go
Go and break my heart like you broke this home

Go and break my heart like you broke this home
