

Fall Into Me

SLANDER

So baby, won't you fall?
So baby, won't you fall?

Oh-oh-oh
Can't you see I'm lonely babe?
Caught up in my own misery
And I can't even say your name
Without letting it haunt me

If I go another night
I don't know if I'll survive
You tell me that you needed space
So baby, won't you fall into me?

Fall into me
Fall into me
Fall into me
Fall into me
So baby, won't you fall into me?
Fall into me
Baby won't you fall?

If I go another night
I don't know if I'll survive
You tell me that you needed space
So baby, won't you fall into me?

Into me, into me
Fall into me
Into me, into me

If I had to crawl
There will be bruises
Oh I'd risk it all
Just to get through this

And I know that I'm not perfect, baby
But I promise I'm tryin'

Can't you see I'm lonely babe?
Caught up in my own misery
And I can't even say your name
Without letting it haunt me

If I go another night
I don't know if I'll survive
You tell me that you needed space
So baby, won't you fall into me?

Fall into me
Fall into me
Fall into me
Fall into me
So baby, won't you fall into me?
Fall into me
Baby won't you fall?

If I go another night
I don't know if I'll survive
You tell me that you needed space
So baby, won't you fall into me?
So baby, won't you fall into me?
