

Heaven Feels Like

SLANDER

(That's what heaven feels like)

Two lost souls in the darkness
Looking for stars through the clouds
Broken down, broken-hearted
You were the light that I found

(Ah, woah)
Yeah, I just had to let you know
(Ah, woah)
No, I don't ever wanna let you go

Some nights, when I look in your eyes
I can see my whole life (Whole life, whole life)
Someday, we'll get out of this place
You just gotta hold tight (Hold tight, hold tight)
I don't know what's on the other side
But you take me up above the sky
Some nights, when I look in your eyes
That's what heaven feels like
That's what heaven feels like

That's what heaven feels like
That's what heaven feels like
That's what heaven feels like
That's what heaven feels like

Every kiss is euphoric
Every word is a song in my head
Nothing else is important
You are the reason for every breath

(Ah, woah)
Yeah, I just had to let you know
(Ah, woah)
No, I don't ever wanna let you go

Some nights, when I look in your eyes
I can see my whole life (Whole life, whole life)
Someday, we'll get out of this place
You just gotta hold tight (Hold tight, hold tight)
I don't know what's on the other side
But you take me up above the sky
Some nights, when I look in your eyes
That's what heaven feels like
That's what heaven feels like

(That's what heaven feels)
That's what heaven feels like
That's what heaven feels like
That's what heaven feels like
That's what heaven feels like

Some nights, when I look in your eyes
I can see my whole life (Whole life, whole life)
Some nights, when I look into your eyes
That's what heaven feels like

That's what heaven feels like
