

Miss You

SLANDER

This party is too loud
I see you with her now
I can't figure out
Why we couldn't last long
You just strung me along
Did I do something wrong?

And tell me, do you miss me like I missed you?
Tell me, does she kiss you like I kissed you, you?
I know you're sleeping in somebody's bed
Part of you wants to be here instead
Tell me, do you miss me like I miss you, you, you?

Where did you go now?
You make me hate this town
'Cause I just see you around
The places that we went
You go there with her instead
And now there's nothing left

Tell me, do you miss me like I missed you?
Tell me, does she kiss you like I kissed you, you?

You, you

I know you're sleeping in somebody's bed
Part of you wants to be here instead
Tell me, do you miss me like I miss you, you, you?
