

Monster

SLANDER

When you're so fucked up that you don't even notice
You don't know where the line is
Just starin' at the darkness
And you did this to me and carried on regardless
Why you so fuckin' heartless?
Now you wonder how I got like this

I got blood on both my hands
Yeah, you didn't stand a chance
Got revenge under my fingers
I'm triggered, I'm triggered

Now I know you pick me up
Just so you can knock me down
I was tryna give you love
You were tryna fuck around
It took a while to figure out
But look what happened now
Everything you did just makes me stronger

So I guess you made a monster
So I guess you made a monster
So I guess you made a monster
So I guess you made a monster

So I guess you made a monster
So I guess you made a monster

I don't even recognize on my own reflection
Oh, I'm starvin' for attention
Starvin' for affection

I got blood on both my hands
Yeah, you didn't stand a chance
Got revenge on all my fingers
I'm triggered, I'm triggered

Now I know you pick me up
Just so you can knock me down
I was tryna give you love
You were tryna fuck around
It took a while to figure out
But look what happened now
Everything you did just makes me stronger

So I guess you made a monster
So I guess you made a monster
So I guess you made a monster
So I guess you made a monster

So I guess you made a monster
So I guess you made a monster

Look at me, look at me
You can't even look at me, look at me
Tell me now what you see, what you see
You should be afraid of a monster like me

Look at me, look at me
You can't even look at me, look at me
Tell me now what you see, what you see
You should be afraid of a monster like me
