Nothing Hurts Like Goodbye

SLANDER

I told you, my heart should be yours for the taking
Is with somebody else and it's breaking
Don't come any closer
I can't take it
You know me, got me laughing at all of your stories
I fought deeper, it's killing me slowly
You give me everything
I can't take it

Ooh, no contact, yeah, I tried that
Ooh, yeah, I fought back when you looked at me like that

'Cause nothing hurts like goodbye
When it's the right person, wrong life
I wanna know what it feels like
Do what I've dreamt a thousand times
What if I missed my train?
What if this time I just stayed?
So if it's cool, if it's alright
Let's pretend that we're in love tonight

Let's pretend that we're in love tonight
Let's pretend that we're in love tonight

I see you, your hands on my skin, on my body
The tension's so much that it got me
To think this is just temporary
I can't take it

Ooh, no contact, yeah, I tried that
Ooh, yeah, I fought back when you looked at me like that

'Cause nothing hurts like goodbye
When it's the right person, wrong life
I wanna know what it feels like
Do what I've dreamt a thousand times
What if I missed my train?
What if this time I just stayed?
So if it's cool, if it's alright
Let's pretend that we're in love tonight

Let's pretend that we're in love tonight
Let's pretend that we're in love tonight
Let's pretend that we're in love tonight
Let's pretend that we're in love tonight

'Cause nothing hurts like goodbye
When it's the right person, wrong life
I wanna know what it feels like
Let's pretend that we're in love tonight
