

Slow Motion

SLANDER

We are dancing in slow motion
We are feeling all the potion
We are loving in slow motion
We are feeling like this new other way of love

Talk about a long night trip, no-no-no
Don't ever wait
You kept traces of my bounds
Your friends are divided in my thoughts
We all love
Dance so I can feel your lips, oh, no-no
Don't ever look away
You fill the spaces in my heart
Your friends are nowhere to be found
We're tripping all around, oh, no-no

We don't know nobody
There's people all around
Oh, girl it's a private party, oh, no-no
We don't know nobody
There's people all around
But love, it's a private party

And I'm tripping, you're tripping
Trip, trip
You're trip, you're trip, your tripping
Dancing in slow motion
Trip, trip
You're trip, you're trip and I'm tripping
Dancing in slow motion

Listen, talk about a long night trip, no-no-no
Don't ever wait
You kept traces of my bounds
Your friends are divided in my thoughts
We're tripping all around and though

We don't know nobody
There's people all around
Oh, girl it's a private party, oh, no-no
We don't know nobody
There's people all around
But love, it's a private party

And I'm tripping, you're tripping
We are dancing in slow motion
We are feeling all my motion
We are dancing in slow motion
We are feeling all my motion

Dancing in slow motion
Feeling all my motion
