

Walk On Water

SLANDER

In the middle of the night, the storm is raging in your mind
And you're drowning in the wake we left behind
When the wind is at your door, but you can't hold it anymore
All the voices in your head just tell you lies

I would walk on water, I would turn the tide
I'm sorry more than anything that I left your side
I will raise the echo of all the pain and pride
My God, I would do anything to bring us back to life
I will walk on water, water, ooh
I will walk on water, water, ooh
To get back to you
I will walk on water, ooh
To get back to you

I will walk on water, water, ooh
I will walk on water, water, ooh
To get back to you, to get back to you, to get back to you
I will walk on water, ooh
To get back to you

I will walk on water
I will walk on water, ooh
To get back to you

Get back to you, get back to you
I will walk on water, water
To get back to you
I will walk on water
To get back
I will walk on water, water, ooh
To get back to you

I gave you all my love, but it can never be enough
So you took it and you buried it alive
And now you found yourself alone, in this house, it's not a home
Surrounding by the walls you built to hide

I would walk on water, I would turn the tide
I'm sorry more than anything that I left your side
I will raise the echo of all the pain and pride
My God, I would do anything to bring us back to life
I will walk on water, water, ooh
I will walk on water, water, ooh
To get back to you
I will walk on water, ooh
To get back to you

Get back to you, get back to you
I will walk on water, water
To get back to you
I will walk on water

To get back
I will walk on water, water, ooh
To get back to you
To get back to you
