

When I'm With You

SLANDER

Never know your name, always changing shapes
Canny in my dreams, bitter when awake
I just wanna shut, shut my eyes again
So I don't have to be here
Met you in my dreams so damn many times
So why can I not find you in real life?
You're everything I want, everywhere I go
So why can't I just stay here?

I know that it's not real but I don't care (whoa-whoa-whoa)
I hate when I'm awake and you're not there (yeah, I'm not there)
I won't give up until you know the truth (truth)
My life is better when I'm with you (when I'm with you)

When I'm with you, when I'm with you
When I'm with you, when I'm with you
When I'm with you, when I'm with you
My life is better when I'm with you (when I'm with you)
When I'm with you, when I'm with you
My life is better when I'm with you (when I'm with you)
When I'm with you, when I'm with you
When I'm with you, when I'm with you
When I'm with you, when I'm with you
My life is better when I'm with you (when I'm with you)

Fade into the stars high up in my dreams (so high)
Never be apart if it's up to me (up to me)
Deep in your embrace for eternity (eternity)
No I won't ever leave here (and I can feel it)
Heartrate in the sky when I see your face
Always know it's you 'cause we levitate
Stargaze in your eyes and I'm unafraid
No, I won't ever leave here

I know that it's not real but I don't care (whoa-whoa-whoa)
I hate when I'm awake and you're not there (yeah, I'm not there)
I won't give up until you know the truth
My life is better when I'm with you (when I'm with you)

When I'm with you, when I'm with you
When I'm with you, when I'm with you
When I'm with you, when I'm with you
When I'm with you, when I'm with you
My life is better, my life is better (when I'm with you)
When I'm with you, when I'm with you
My life is better, my life is better
My life is better when I'm with you (when I'm with you)
When I'm with you, when I'm with you
When I'm with you, when I'm with you
