

Your Fault

SLANDER

I thought since the beginning
It was you and me
(What do I know)
Where is our happy ending
What did it all mean
'Cause now you're riding into the sunset
Must've checked three, four times
You didn't even look back

You said she's the reason
You lived in your head
This is why you're leavin'
And treatin' me so bad
Planning for our future
But you're still in the past
I give you so much time
Time I can't get back

You gave up so easily
Promise you can't replace me
Oh, you promised me forever
Then you crumbled under pressure
I guess you're too blind to see
It's your fault
It's your fault
It's your fault

It's your fault
