

Devilinu

Slank

The longer I hang out with you
The more my head spins round and round
Can't keep both feet on the ground
You've got the devil in you

Always sucking up to you
Only makes me look like a fool
Messes with my mind
You've got the devil in you

Were different you and I
Can't stay together forever
We're just so unalike
So don't fool around again, ok

Being mixed up with you
Has made my whole world go crazy
Dries up all my thoughts
You've got the devil in you
You are trouble that you
You've got the devil in you
