Back Home

Slapshock

Feel the silence inside turn these pages
Like a book of my best and never fade
In sorrow he held and together
Never fell on my own 'cause you were there

I know you will
You changed my life
Right from the start

Go!

Still (still) still (still) still (still) I recall
All alone while we're back at home
Still (still) still (still) still (still) I recall
All those days when we're way back home

Away!

Been await for too long
Counting days now
To be back in those arms and moving in
If I could bring back the time every moment
We'll be bright as the sun
'cause you'll be there

I feel that clouds only moving the wind
For the rain to fall down in my face
And wait for the sun to shine down
On me while I'm walking away
way!

Home!
