

# Blisters

Slapshock

I must break down  
While you're dancing in the fire  
(So I'm burning down the place again)  
I'm screaming out  
While the waters getting higher  
(So I'm drowning in this place again)

Sometimes the sickness is fading with you

I'm tired of explaining  
The words I've been saying  
Can you hear me?  
Can you feel me?  
I'm sick of explaining  
The words I've been saying  
Can you hear me?  
Can you bring me to the end?

I went too far  
Too far to what I desire  
(Now it's hunting me back again)  
My promises is wading in the water  
(Things will never be the same)

Sometimes the sickness is fading with you

I'm tired of explaining  
The words I've been saying  
Can you hear me?  
Can you feel me?  
I'm sick of explaining  
The words I've been saying  
Can you hear me?  
Can you bring me to the end?

I'm tired of explaining  
The words I've been saying  
Can you hear me?  
Can you feel me?  
I'm sick of explaining  
The words I've been saying  
Can you hear me?  
Can you bring me to the end?

I'm tired of explaining  
The words I've been saying  
Can you hear me?  
Can you feel me?  
I'm sick of explaining  
The words I've been saying  
Can you hear me?  
Can you bring me to the end?
