

# Burn In Hell

Slapshock

I'll watch you burn in hell  
As I kiss the night away  
Don't need you love no more  
Left my tears from yesterday

Burn in hell!

Angels keep following me to the other side  
Pointing to what I should see with my naked eyes

NO!  
no more love,  
no more blood,  
no more pain.

Coz I'm sick of your stupid games

no more tears,  
no more scars,  
no more lies.

I'll watch you burn!

I'll watch you burn in hell  
As I kiss the night away  
Don't need you love no more  
Left my tears from yesterday [2x]

I'm screaming for you to give in to your hopeless life  
I'm the cure or your medicine for your corrupted mind

NO!  
no more love,  
no more blood,  
no more pain.

Coz I'm sick of your stupid games

no more tears,  
no more scars,  
no more lies.

I'll watch you burn!

I'll watch you burn in hell  
As I kiss the night away  
Don't need you love no more  
Left my tears from yesterday [2x]

I got no sympathy  
This deck of cards  
Is telling the truth  
I will just walk away, goodbye!

All of your promises  
Turn into stone  
It crawls in my bones

Leaving you almost dead, goodbye!

I'll watch you burn in hell  
As I kiss the night away  
Don't need you love no more  
Left my tears from yesterday [2x]
