

Dangerous...

My innocence keeping us alive  
We know the truth, we kill the lies (kill the lies)  
Like the sickness that you can't survive  
We multiply and then we rise (then we rise)

Playing with the flames and fire, adrenaline is higher  
We're marching to the sound of lightning and desire

We are, we are, we are  
Living dangerous  
We are, we are, we are  
We are dangerous  
We are, we are, we are  
Living dangerous  
We are, we are, we are  
Dadadangerous

We'll keep on marching now until the end  
We're in a war we don't pretend (don't pretend)  
We are the voices running through your head  
I hear we shot then you're dead (then you're dead)

Playing with the flames and fire, adrenaline is higher  
We're marching to the sound of lightning and desire

We are, we are, we are  
Living dangerous  
We are, we are, we are  
We are dangerous  
We are, we are, we are  
Living dangerous  
We are, we are, we are  
Dadadangerous

There's a monster hiding underneath of us  
We keep searching for the soul that we can trust  
We will fight once again  
(You'll see your ashes fading away)  
We will fight 'till the end  
(No one can stop us and we RISE!)

Go!

We are, we are, we are  
Living dangerous  
We are, we are, we are  
We are dangerous  
We are, we are, we are  
Living dangerous  
We are, we are, we are  
Dadadangerous
