

Dead Like Me

Slapshock

I'm stranded this time in your distant memories
Cause I woke up late without you here
I bite my tongue just to see how much it bleeds
Cause I want to know if I exist

Should I let you go away (let you die)?
I want you to stay (let you die)

I try to reach you down inside
But you run and try to hide
Would you feel like what I feel?
When you're dead like me
I try to reach you down inside
But you run and try to hide
Would you feel like what I feel?
When you're dead like me
When you're dead like (me)
When you're dead like (me)

I watching good than while you keep ignoring me
Hoping that soon you will see me
I giving a plan to the world we live it in
I'm stranger my fear without you here

Should I let you go away (let you die)?
I want you to stay (let you die)

I try to reach you down inside
But you run and try to hide
Would you feel like what I feel?
When you're dead like me
I try to reach you down inside
But you run and try to hide
Would you feel like what I feel?
When you're dead like me
When you're dead like (me)
When you're dead like (me)

Spread your wings around me
Like a butterfly (like a butterfly)
All your fears surrounds me
I'm afraid to fly (I'm afraid to fly)
Why can't I fly away?

I try to reach you down inside
But you run and try to hide
Would you feel like what I feel?
When you're dead like me
I try to reach you down inside
But you run and try to hide
Would you feel like what I feel?
When you're dead like me
When you're dead like when you're dead like
When you're dead like when you're dead like
When your dead like dead like dead like dead like me...
