

# Drown

Slapshock

It's goin' down like this...

I got this pain up in my brain  
I think I'm goin' insane  
Like there are two million soldiers just waitin' for the rain  
Oh no here comes my daydream  
The devil chasin' me like it was Halloween  
I'm sick and tired I can't go on like a big ass stone crushin'  
over my bone  
Hey you what you gonna say  
You can never try to run you can never get away

Side side side  
I'm drowning inside [4x]

You have to get up  
Your mind is on the deathtrap  
The water that runs will never stop  
You piece of crap  
Can't you see why can't you be  
Everybody now they start looking like me  
It's a suicide take a ride feel the vibe  
Be the groom even though there ain't a fuckin bride  
Wanna take you under my art is a killer  
This life is a cover-up murder

Please don't let me kill you with your heart  
Open up your eyes as you're waiting to be blind  
I think you can accept the blood flows in your head  
Just put it in the bag  
Just put it in the bag

Side side I think I'm drowning in [3x]  
Side side  
Drowning inside  
Drowning inside
