

## High Times

Slapshock

Drop this shit when I smoke then I get ill  
I got the muthafuckin' rhyme getting burn like a grill  
Kiss your ass goodbye when I get so high  
I feel like I could fly can I die  
Dyin' I'm not dying I'm gonna keep on goin' and going  
Until the muthafuckers fuck with me  
I want to sing but you don't even know all the pain I bring  
So boom I blast you, you can take it for free  
You get high with your crew and your enemy  
Blue I see blue and white  
I'll be like Mike Tyson when it's time to take fight  
I see you I say yeah  
Throw yo hands in the air

Don't you fade away  
I get high like everyday

Drop this shit you never stop you never quit  
Wind below your feet I got my head hangin' underneath  
All the way I'll take yah your burnin' like fire  
Hold it back down I'll be your messiah  
These black clouds over me  
I feel like dyin' in a kung-fu movie  
Like my man Bruce Lee no time for the wannabe  
This is my last bit of energy left can't you see

High times I feel so fine  
Stiggidy booms gonna make you high [4x]  
High times I feel so fine  
Stiggidy booms gonna make you high [4x]
