Like U

Slapshock

Get down to the beat yo! And act like Kid Sysco
Listen to the pain I deliver to your stereo
Keep on asking why, How you gonna fly
All your crooked lie, they don't
They multiply, try to realize
It's yo name that I despise
So open up your eyes
You ain't got to analyze

First I curse on verse, I quench your thirst
You're a punk, bitch
Put me in reverse

Get out of my face now before I put you in yo place, no
trace
I got this case, I spell your evil ways
Try to testify while you terrify
Asking myself Why? Why? Why?
You can never die, inside your mind
You are the truth, You are the root of all evil

Start diggin' as you travel
I'm cryin' all night, I'm cryin' all night
Waitin' for the right time yeah, to choke you so tight

It's really hard to be like you
You keep on tellin' me what to do
I spit these words 'cause I blame you
It's really hard to be like you

I feel the sickness, stitches in my face, some twenty

inches
Replace your face, there's a mask inside your briefcase
I'm sufferin' inside, then I want to hide
I'll try a little suicide
Yeah I can't survive on the otherside
Of this world and other planet
Your mouth is like a gun, I can be your moving target
So forget it, it's acrobatic, life's so tragic
You'll be the drugs baby, I'll be the addict

I lost my life but I ain't goin' down without a fight
Alright, you put me in the dark every single night
You're a disease just like another HIV
The only word you know is the word H - A - T - E
If there's an award-giving body for being a bitch
You could've won every single one
Prepare your speech and teach each and everyone
How your mouth becomes a gun
Try to hide behind the sun

Keep me away from you
Don't want to be like you

Wipe my f*ckin' face
