

# Numb

Slapshock

I try to lose myself today  
And hope this pain will go away  
A thousand days I tried to waste  
I feel the same that you're still OK

I feel you, you don't feel me  
I see you, you don't see me

Duck! Duck! As we stand back to back  
I see you disappear in my eyes it fades to black  
I wanna let it out when I'm back on the track  
Causing you to move and bringing you heart attack  
And I feel the pain like a needle in my vein  
Now hurt myself 'cause you think I didn't know how  
Cut myself and watch me bleed  
I turn around as I watch you leave!

Don't take away your eyes  
'Cause I know you're beside me  
But I just can hold and see  
I wish I'm numb inside  
'Cause I don't want this feeling  
This feeling that I can't hide

One! Two! Three! Four!

I try to crawl inside of you  
And make you feel those things you do  
I turn away to watch you drown  
I'm still right here  
Try to hear a sound

I feel you, you don't feel me  
I see you, you don't see me

Duck! Duck! As we stand back to back  
I see you disappear and my eyes fades to black  
I wanna let it out when I'm back on the track  
Causing you to move and bringing you heart attack  
And I feel the pain like a needle in my vein  
Now hurt myself 'cause you think I didn't know how  
To cut myself and watch me bleed  
I turn around as I watch you leave!

Don't take away your eyes  
'Cause I know you're beside me  
But I just can hold and see  
I wish I'm numb inside  
'Cause I don't want this feeling  
This feeling that I can't hide

Disappear, as we stand back to back  
Disappear, as we stand back to back  
Disappear, as we stand back to back  
Disappear, as we stand back to back  
Disappear, as we stand back to back  
Disappear stand back to back

One, one, one, boom!  
Disappear, as we stand back to back  
Disappear, as we stand back to back  
Disappear, as we stand back to back  
Disappear stand back to back

Don't take away your eyes  
'Cause I know you're beside me  
But I just can hold and see  
I wish I'm numb inside  
'Cause I don't want this feeling  
This feeling that I can't hide

One! Two! Three! Four!

Numb!  
Numb!  
Numb!  
Back. Back. Back to back!  
Numb. Numb. Numb
