

Psycho Love

Slapshock

Yeah yeah yeah come up [2x]

We begin to your sin when you were a fiend
Come again like a drug in my body like amphetamine
You got jacked and I got stacked when you turn to black
I'm back to the time when I'm feeling you'll be mine
This is a story I said I'm sorry
Of love, hate, fun and orgy
You better run to your mommy if you've got no one
Hide in a suitcase like you're hidin' from the sun

I'd rather die than to see you fly
I'd rather die than to see you fly
I'd rather die than to see you fly
Psycho love [2x]

You gave me love without you I feel like I got robbed
Like a dove when it cries all I do is crucify
Magnify defy the truth about the lie
I said I-I-I wanna die
When you spin then I try to win your heart again
I'll be singing halleluja like I am a born again
Christian no ammunition to all your questions
I am a guilty party and I got no explanation

Talking sex on the text you don't know what's comin next
Watch me flex as we watch some hardcore triple-X
Tu ma's dis je t'aime je t'ai dis attends j'allais dire prends-
moi
Be my senorita make love in my casa
If you want some more then I'll call you manana
Tu m'as dis attends tum'as dis va t'en

I love you, you can never get away
I need you, you can never try to play [6x]
Love me, love me, love me
