

## Push Me

Slapshock

My adrenaline rushin' to my brain  
When I'm travellin', die while you're sufferin'  
Come again  
Don't you ever feed and consume me  
You push on the wall just to take what you gave me

I came face to face with the Devil  
Like Evil Knievel, I break bones yo  
Better than Steven Seagal

Don't spit, don't quit, you don't benefit  
Just look into my eyes, all you see is a hypocrite

Don't ever judge me, You're breaking myself!

Don't push me! I'll try to see you inside my head  
Don't push me! I'll try to feel you inside my head

It's a lifestyle of the poor and shame  
No money, no life, no food, no fame

Got no time to deny  
Got no time to die  
You'll be okay, 'cause I'll be the one to crucify

So open your eyes, your ears, you're on your own  
You're livin' a life without your heart  
You can't fight alone

Now you see me on TV and act like you know me  
What the fuck now, I'm drowning in my misery!

You want to die with me tonight  
Everything's gonna be alright.

Push me  
Don't Push Me!
