

Never turn away coz I will be here for you  
I know just how you feel  
Lift your head, open your eyes

There's so many things out there for you  
And you're strong enough to make it through  
I feel the love that comforts you  
There's no one there that can put you down

Feel my pain  
Diggin' inside my vein  
Makes me want  
Makes me want to define  
What I feel for you

Boy you're there to touch the sky  
No need to wonder why  
I want to disappear so I can be with you  
I know it eats you up  
I'm here to lift you up  
There's something more to life  
And this is all for you

Never hold your breath, breathe it in and breathe it out  
Please don't hurt yourself  
You're there to prove yourself to them

Sometimes I feel that I put you down  
Try to scream at me so I hear you now  
I will make it up like I always say  
I will come to you on a perfect day

There are so many times I know you feel  
Life you had enough of this life  
There's always a light on at the end of the tunnel  
For you to be all right  
And your exhausted smile is a sign  
Of being left all alone  
How I wish I could be there to pick you up  
But this is just a song that  
I sing for you  
To get you through  
This crooked life  
So let me

I'm here for you and this is true  
I will take you  
I will be around  
I'm here for you and this is true  
I will take you
