

## Slap vs. Freak

Slapshock

I'm faceless like a Holy Ghost with no traces  
You die in a Battleground and still be a nameless  
Fuck your races, I'll burn them half of the Cannabis  
I'll twist your head like the exorcist  
Remember this a little twist of faith, fuck hate  
You make me bleed I explode as my head ache  
So many people try to put me down  
Well, I come back up, I loosen my track up, I've given away your back up  
Trapped in a trauma of the lyrical soldier  
Crossing over border with the eyes of a viper  
The venomous touch, I'll be your infamous Scotch  
I'll be too-damn-early, better check on your watch  
Cause this generation is causing all the motion  
Like the beautiful creation of God with all devotion  
Deeper than Atlantic Ocean and constellation  
Third dimension one God and one nation

Better fly now  
Better fly now (Check, check, check)  
Fly now  
Better fly now  
Better fly now (What, what, what)  
Fly now

Feeling so down and I see it's crawling after me  
Life is full of complication, people think it's revolution  
Now it's going down below are knees

(What, what, what)  
(What, what, what)

I'm here to orchestrate your faith before it's too late  
I try to contemplate that's in line between love and hate  
You got to wake 'cause it's time to motivate  
and mess your mind skills, now it's time to elevate  
to the next dimension with the right calculation  
We'll travel the universe and travel as one nation  
Indivisible with liberty, no question!?  
This is all true, what the fuck, it's none fiction  
Who's got the key to be free?  
It's got to be Mahatma Ghandi, it's just another history  
My prophecy is coming after me  
So, accidentally I've caused my enemy that poop like the sick  
I can say fuck you and not talk about you  
It can be a frustration that I'm sharing with you  
Cause I know God loves everything that you do  
everything that you feel and everything that he puts you through

Feeling so down and I see it's crawling after me  
Life is full of complication, people think it's revolution  
Now it's going down below are knees

Get down to this place  
Get it on  
Now, I'm suffocating inside  
Get down to this place  
Get it on

Feeling so down and I see it's crawling after me  
Life is full of complication, people think it's revolution  
Now it's going down below are knees

I've been wasting all my time  
I've been waiting on the line  
Feeling so down
