Stronger

Slapshock

Crucify me!
Spitting it out, spitting it out
Your words can't seem to break me
Show me your face, show me your face
I'll tell you you're a liar

Running all around
Driven by the sound
Be the witness and suffocate your mind
Your sickness is what I have inside

Hear me inside out
Feel me inside out

No, I am not afraid
Afraid to face the day
The new solution is my self destruction

Understand me!
Swallow the pain, swallow the pain
It makes my heart beat faster
I'm going to shine, going to shine
Before we all stop breathing

Running all around
Driven by the sound
Be the witness and suffocate your mind
Your sickness is what I have inside

Hear me inside out
Feel me inside out

No, I am not afraid
Afraid to face the day
The new solution is my self destruction

You can't break me
You can't fake me
I'm stronger now, fuck you

No, I am not afraid
Afraid to face the day
The new solution is my self destruction

You can't break me
You can't fake me
I'm stronger now, fuck you
