Swallow

Slapshock

Waiting for the time just to make you feel the rhyme
You gotta listen to my story and open up your mind
I feel your mouth moving but I don't hear a thing
Maybe I can sing about all the pain you bring

Everybody now sayin' can you save me
Protect yourself but don't you break me
I walk away so can you help me
To find another place for me and you, you and you
'Coz this will be the day

You will swallow everything I feed to you my friend
I will say it again
You will follow everything that comes within your way
I will say it again

I'm spittin' all these words coz I know there's somethin' wrong
You keep dancin' in this place but you don't know the song
We're gonna try to fly away just to make you feel okay
We're gonna try to talk it out and find another day

Everybody now sayin' can you save me
Protect yourself but don't you break me
I walk away so can you help me
To find another place for me and you, you and you
'Coz this will be the day

You will swallow everything I feed to you my friend
I will say it again
You will follow everything that comes within your way
I will say it again

You can never be yourself
Keep on acting like someone else
Listen to my deadly voice
You can't run you got no choice

You can never be yourself
Keep on acting like someone else
Listen to my deadly voice
You can't run you got no choice

You will swallow everything I feed to you my friend
I will say it again
You will follow everything that comes within your way
I will say it again

You will swallow everything I feed to you my friend
I will say it again
You will follow everything that comes within your way
I will say it again

Say it again
Say it again
Say it again
Say it again!
