Waiting

Slapshock

If the sun refuse to shine
I will shine for you
You're the star the paints the sky
I'll be watching you

I seen my world in your direction
I will go with good intentions with you

Cause I'm waiting, I'm waiting for you
Until the night is through

If this place becomes too cold
I will cover you
You're the wind that turns my world
I won't fail for you

I seen my world in your direction
I will go with good intentions with you

Cause I'm waiting, I'm waiting for you
Until the night is through

Now it's okay to feel me
It's just you and me now all alone

Cause I'm waiting, I'm waiting for you
Until the night is through
